

Love Is In The Air

A Must Keep

Product Review

Projects

by candy x

Summary

This is such a quick and easy project, but gives stunning results.

Using just a 7gm pack of silver, you can make a nice sized pendant, or a sweet pair of earrings.

With limited tools, and the 7gm pack of silver, its a great starter project that suits every pocket.

You could always customize your design a bit by doing different shapes, the design choices are endless!

Useful Tip

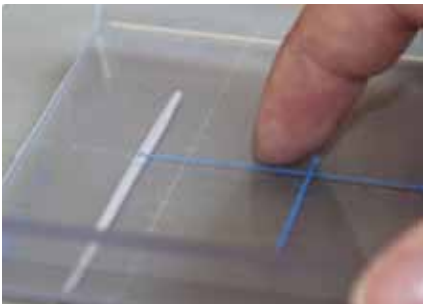

Full firing instructions can be found on our Learn More page on our website.

Our Rubber Sheet for Carving Textures works great as a work surface for this type of work. Its helps to hold your clay, so its easy to shape, but is also mildly non-stick, so when dry, your clay won't stick.

And it's only £1.95!

Materials

Art Clay Silver 7gm
Work Surface
Acrylic Snake Maker
Paint Brush
Firing Method
Brush

Step 1

Roll out your clay into a thin sausage. Using an Acrylic Snake Maker makes this much easier.

Step 2

Shape your sausage and join the end with a damp brush.

Step 3

Once dry, refine any rough areas with a sanding pad or baby wipe and fire.

**Step 4**

Once cooled (or quench in cold water to speed this up), brush your piece. This will flatten the silver particles and create a gorgeous silver shine.

**Step 5**

Hang your finished piece!
